

Steps for Connecting Lingnan Library Wireless LAN Service (Lingnan Library) – iOS

- **First time users: Please complete step 1 to step 6.**
- **For users who have already configured the “Lingnan Library” SSID profile in your iOS device, please complete step 4 to step 6.**

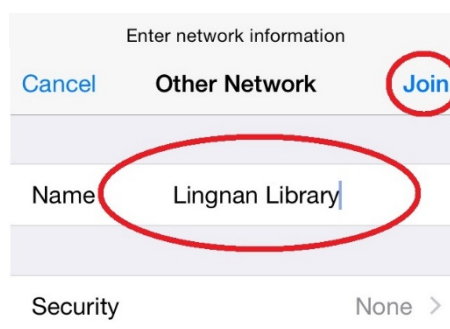

1. Click the “Wi-Fi” in Settings menu and make sure that your iOS device’s Wi-Fi has been turned ON.

2. Click “Other...” in Wi-Fi menu.

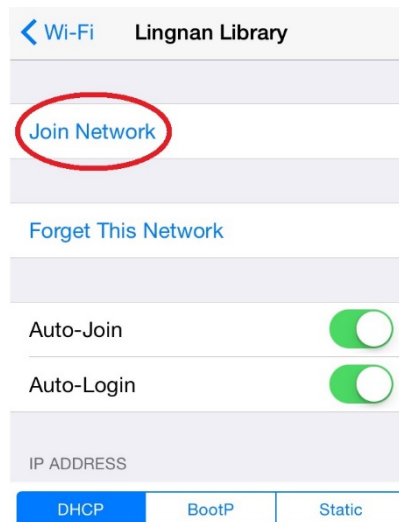

3. In the “Enter network information” box, type in “Lingnan Library” for Name, set Security type to “None” and then click “Join”.

4. In Wi-Fi menu, select “Lingnan Library”.

5. Click “Join Network”.

6. The login page will be displayed. Please input the User Name, Password obtained from the Integrated Helpdesk at the Chiang Chen Information Commons and click “Submit” to establish the Wireless LAN connection.
